The Myers-Briggs Type Indicator (MBTI) is a valuable tool that helps individuals uncover their strengths and areas for growth. As we age, it is important to recognize that our MBTI profile may evolve, and holding onto an outdated profile can hinder our ability to navigate life's changes. In this webinar, Rev. William Jarema will explore how understanding your current MBTI profile can enhance your capacity to cope with change, manage unexpected situations, and seek support from others. Additionally, he will delve into the concept of the "inferior function," likened to a treasure hunt where you will discover new resources to help you live life to its fullest. Join us for an insightful and enriching session designed to support your journey of self-discovery and personal growth.

 **Myths and Realities of End-of-Life Care: Supporting the Dying in their Final Days** 

Includes a Live Web Event on 05/07/2024 at 1:00 PM (EDT)

[Overview](#) [Speaker](#) [Flyer](#)

How can Catholic religious communities support their members as they prepare for death? In this webinar, we will explore current trends and options in end-of-life care with consideration of how they align with our Catholic teachings. We will discuss topics such as the benefits of advanced care planning with a focus on personal values. Considerations of what constitutes ordinary vs. extraordinary means to preserve life will be explored, along with understanding artificial nutrition and hydration and its place in end-of-life care. Part of this session will include the benefits of palliative care services. Lastly, practical options for making one's wishes known will be an integral part of our time together. \*This webinar is cosponsored by The National Religious Retirement Office (NRRO).
